Dell 3310 Laptop Insurance Options

In the event of accidental damage to your laptop, the district is providing an optional internal insurance plan to help cushion the cost of potential repairs to all families.

The cost of the plan is \$20 annually, per child and will provide a discount to families when accidental damage occurs to their device. All interpretations for accidental/intentional damage will be made at the principal's discretion. To participate in this Insurance program, payment will need to be made through BPS Efunds. The plan is non-refundable.

***(An Efunds link will be available soon on the Berkshire website)
