Seaholm High School Honor Code

Academic Integrity

Seaholm High School's faculty, staff and community believe that it is their mission to help every student learn to think with reflection, act with compassion, and perform with honor in high school and beyond.

An essential part of education is developing a sense of honor, responsibility, respect and integrity. Responsibility is the quality of being accountable for our actions and accepting the consequences of those actions. Respect is treating others as we would like to be treated.

Integrity is a firm adherence to our values with or without the presence of others. Honor encompasses all of these virtues and ultimately determines our actions and beliefs.

The honor code is a physical representation of the values that Seaholm High School embraces. At any educational institution, a code of conduct must be established so that staff, teachers and students alike understand to what set of standards they will be held. The honor code asks that we hold each other to high standards of personal achievement, ethical conduct and academic integrity. It creates an academic environment in which a student's search for knowledge is a true and honest reflection of that effort. True success lies in one's desire to do the right thing, even when no one is looking.

Academic and Grading Policies

Academic Evaluation

Each teacher establishes grading policies outlined in their course syllabus.

Academic Misconduct

See Prohibited Behavior

Grading Policy

The quality of work achieved by students shall be evaluated in terms of letter grades A, B, C, D, or E. Plus and minus grades may also be used. Students shall be graded upon their achievement as measured against the goals or desired outcomes established for each course. Grades given to students should be based upon many factors such as unit tests, daily quizzes, oral and written reports, class participation, projects, homework, and student effort.

Teachers will provide each student with a written description of the course goals and objectives and grading procedures or have them posted in the classroom.

The final grade in a course is determined by an average of the following:

1. A final exam or experience which may count no more than 20%.
2. Other grades for the term as determined by the teacher which will count at least 80%.
3. It is the responsibility of each department to establish guidelines and standards for grading their subject matter. Such guidelines and standards shall be consistent with all other listed statements.
4. In addition to A, B, C, D or E, the following special grades may be given:
 - F= Withdraw failure for administrative reasons (truancy)
 - G = Passing grade in a pass/fail course
 - H = Excused for health or medical reasons (grade and/or credit waived—Principal/Assistant Principal permission required)
 - I = Incomplete (to be changed to a grade as soon as possible, generally within 2 weeks)
 - U = Failure in a pass/fail course
5. Grade point averages are based on the following numerical format:

A = 4.0	B+ = 3.3	C+ = 2.3	D+ = 1.3	E = 0
A- = 3.7	B = 3.0	C = 2.0	D = 1.0	
	B- = 2.7	C- = 1.7	D- = 0.7	
6. Honor Roll: Seniors with a cumulative period grade point of 3.5 to 3.79 will be recognized as Cum Laude. Seniors with a 3.8 and above will be recognized as a Seaholm Scholar.
7. Student grades, credits and promotions are within the ultimate review and determination of the Superintendent and/or designee. There are occasions when

these are challenged by students or parents. If such a challenge cannot be resolved by the teacher, it shall be subject to the appeal process (see Board Policy 5421).

8. Students may elect a total of 2 credits in grades 9-12 on a pass/fail basis. The student must make this arrangement with his/her counselor. No more than $\frac{1}{2}$ credit may be taken pass/fail in any one trimester. The decision to take a class pass/fail must be made by the end of the sixth week of the trimester unless administrative approval has been granted (note: some universities view pass/fail negatively when evaluating transcripts).
9. All students are expected to take 5 classes each trimester. Students will not be allowed to drop a class due to poor academic performance, nor can students drop a class because minimum requirements have been met in that subject area.
10. Homework Request: Students are encouraged to contact teachers via email to request work missed due to unexpected absence. If a student is absent three or more days, a homework request can be arranged through the counseling office at (248) 203-3751. Please allow 24 hours for the teachers to submit work to the counseling department.
11. Final Examinations: All students, with the exception of final term seniors who qualify for a waiver, will take the final exam in each course. This exam will be administered at the conclusion of each course and may take one of several different forms.

A- Waiver of Final Term Exams for Seniors: Students must:

- Have a B average or above for the third and final trimester (grade requirements are in addition to the standard attendance policy)
- Turn in all major assignments
- Accumulate no more than seven excused absences during third trimester
- Not have excessive tardiness or any unexcused absences during final trimester
- Not be taking the class on a pass/fail basis
- This policy does not apply to students who choose to graduate early

B- 15 *Note: If a student chooses to take a final(s); the resulting grade will be calculated into the trimester grade.*

12. Early Exams:

- a. Early exams may not be given more than 2 weeks prior to the close of a trimester
- b. A written request must be brought to the Principal's office specifying the reason and the last day the student will be in school, and not later than four

weeks in advance of the student's last day. This form is located on the Seaholm Website under the Families page.

13. **Testing Out Procedure:** According to Public Act 335, Section 12796, a high school student may earn course credit by demonstrating mastery of the subject area. This is accomplished through testing by a district authorized institution.

- A C+ or better must be achieved on the CCA (course competency assessment) listed on the course syllabus to earn credit. C+ is defined as 78% or better.
- Students can only –test out|| if not enrolled in the course.
- Credit earned is based on a pass grade (G) and is not computed into the GPA.
- Credit does count toward fulfillment of the subject area and course sequence requirements.
- Credit earned does not count toward graduation except in foreign language.
- Once credit is earned in a course through this option, students cannot enroll and receive credit in a lower course(s)
- Students must still take a full load of courses as specified by state and local policy
- Exams must be taken during regular exam periods during the year. Students must complete a registration form (available through counseling) and choose an exam period by the following deadlines:

Test out Registration Deadline

August Registration	June 1
Term 1 – Final Exam Period	October 1
Term 2 – Final Exam Period	January 1
Term 3 – Final Exam Period	April 1

- Copies of the course syllabus and outcomes will be provided
- The subject area department will provide the final exam and confirm all arrangements
- Parent must arrange and pay for the foreign language assessment if such a language is not taught in the BPS system
- On-line courses must be approved by the department head

14. **Make-Up Work:** Students must make up work for excused absences within a time frame **designated by the teacher**. Students are responsible for securing and completing the assignments. At the same time, students must understand that there are classroom experiences that cannot be duplicated and will affect the grade in the class. When a student is unexcused from a class, they will not be given credit for any work missed nor can they make up missed tests or quizzes.

15. **Test Make-Up Center:** A test make-up center will be available from 5:45 am to 7:15 am every day for those with **excused** absences.

16. Fines: Students are responsible for the school materials they use. Fines will be issued if any school property is not properly maintained or returned. Registration for the following year is on hold until all fines are settled. Once the fine slip has been given to the bookkeeper, there will be an additional late charge for materials turned in after a trimester ends. Seniors can pick up caps and gowns only when all fines have been settled.

Attendance

Students are expected to be in school and in class every day. Classroom experiences cannot be duplicated and are a crucial part of course work needed to earn credit. Absences diminish the educational experience of all the students in the class. Regular/consistent school attendance helps develop responsibility and self-discipline and prepares students for the world of work.

Seaholm Attendance: Seaholmattendance@birmingham.k12.mi.us

Parent or guardian must email student absences within 5-days following the absence. Only messages received via email will be recorded on the student record.

Please allow 24-hours for attendance to be updated.

Need Your Student Excused During the Day?

Students leaving early must visit the Attendance Office to get a pass to leave class prior to the beginning of that class period. We will NOT be interrupting instruction and student learning for early dismissal. Students with dismissal passes will need to sign-out in the Attendance Office/Main Office before leaving the building. Students arriving late or returning to school will need to use the Late/Tardy Arrival QR Code posted throughout the building to record their arrival information before entering class.

EE = Excused Exempt – Parent reported the absence within one week of the absence. The reason for the absence is supported by the factors outlined in the attendance policy:

- **Illness with medical documentation**
- **observation or celebration of a religious holiday**
- **recovery from accident with medical documentation**
- **required court attendance with court notice**
- **death in the family**
- **other absences that may be deemed acceptable by the Superintendent or designee**
- **Religious instruction according to M.C.L.A. 380.1561(3d)(3e) (See Policy 5223) will be counted toward loss of credit.**

If a student is absent for a condition related to an illness/medical condition for which documentation has already been submitted, the parent should reference the documentation when reporting the absence (i.e. migraines, IBS, severe asthma,

followup medical appointments, etc...).

EN = Excused Nonexempt - Parent reported the absence within one week of the absence. The reason for the absence is not outlined as one of the factors in the attendance policy to make the absence exempt.

A = Unexcused Absence - Parent did not report the absence, student did not attend class or a combination of both.

- Leaving class without permission is an unexcused absence.

TA = If a student arrives more than 10 minutes late to class, it will be recorded as a Tardy Absence

PLEASE REMEMBER: A parent or guardian must notify the school within one week following the absence and report in each day a student is absent. The attendance email (Seaholmattendance@birmingham.k12.mi.us) is available 24 hours a day.

Remote Learning: Students who are enrolled in full-time or part-time remote learning must access the Zoom classroom with their camera on. Attendance will be taken by the classroom teacher and students will be held to the school's daily attendance policy (see "Consequences for excessive absences"). Turning off the camera during class is considered leaving class without permission from the teacher, and is considered an unexcused absence.

Consequences of excessive and/or unexcused absences: In order to retain privilege of earning both a grade and credit for a class, a student must not exceed a total of seven EN/A absences. Upon a student reaching eight EN/A absences, (EE absences do not count toward the eight) he/she will be placed on an attendance notice. If a student violates the notice, a letter grade of "F" will appear on the transcript and will affect the student's overall GPA. However, credit may still be earned based on the student demonstrating competency in the course as defined by the district and the class syllabus. If a student receives credit, the grade will appear as "FC" on the transcript and it will affect overall GPA.

Tardiness is unacceptable at Seaholm and is subject to disciplinary action and/or attendance contract. While events happen to cause occasional tardiness (car trouble, forgetting to set alarm, etc.), these are unacceptable reasons for chronic tardiness. After three tardies, teachers should address the student, contact the parent, and may issue a detention. If a pattern of tardiness persists (6 or more tardies denotes a pattern of tardiness), teachers may contact the Assistant Principal after they have communicated the concern with the parent.

Make-Up Work: Students must make up work for excused absences within a time frame **designated by the teacher**. Students are responsible for securing and completing the assignments. At the same time, students must understand that there are classroom experiences that cannot be duplicated and will affect the grade in the class. When a student is *unexcused* from a class, they will not be given credit for any work missed nor can they make up missed tests or quizzes.

Visitors: All visitors to the building are required to report to the office and must pick up a visitor's pass. **Arrangements for visiting students should be made in advance with the Community Service Organizer (CSO).** Students attending schools within 25 miles of Seaholm are not welcome as visitors unless they have a sincere interest in attending Seaholm. The family should contact the Seaholm CSO to arrange a family tour. After the tour, a shadow visit may be arranged. Younger siblings are not permitted as visitors. Student visitors without a visitors pass will be considered as trespassers.

Pre-Arranged Absence: Forms are available in the Attendance Principal's office and must be signed by a parent or guardian. They must be completed at least one week in advance of the anticipated absence. The form is presented to the teachers for signatures and returned to the Assistant Principal's office. *Signed form does not exempt student from the school's eight-absence policy.*

Withdrawal and Probation: Students with significantly reduced schedules due to excessive absences may be withdrawn from school for violating Michigan School Law (R 340.10 – over 16); referred to authorized court and/or school personnel for violating Michigan School Law (380.1562 – under 16). Students who have been asked to withdraw from school for attendance and/or disciplinary reasons may, following a conference with the Principal or Assistant Principal, re-enroll the following trimester. Students will have to demonstrate that they have taken some measures to improve their attendance/discipline and will succeed in their courses at Seaholm.

Student Responsibilities:

- To attend each class every day
- To insure all attendance records (teacher, Assistant Principal and attendance offices) have been corrected when student arrives late
- To make sure a parent excuses absence with a note or email within one week following an absence (**any absence not reporting or excused within the following week of the absence will be treated as unexcused**)
- To present a note to the teacher for all in-school absences (e.g. field trips, school business, etc.) prior to date of absence
- Students who arrive tardy must record the arrival using the QR code for attendance.
- Students who leave and/or return at any time during the day must sign out with the attendance/main office and back into school using the QR code for attendance.
- Parents must give verbal or written permission **prior** to a student leaving school. Without such permission, the absence will be unexcused
- To seek and make up work for any excused absence
- To attend three or more classes in order to participate in an after school athletic contest or extracurricular activity for that day
-

Parent Responsibilities:

- Send an email to excuse out-of-school absences within one week following the day of absence; (**necessary for any senior wanting to waive out of final exams**)

- To discuss with student and follow up with the school when necessary on reported absences (available in Power School)
- To help students understand the relationship between habits and responsibilities, now, and in the future
- Freshmen/sophomore students must abide by closed campus policy throughout the school day. Freshmen/sophomore parents must give verbal or written permission **prior** to a student’s leaving school. Without such permission, the absence will be unexcused
-

Appeal Process – Attendance and Disciplinary

Students and/or parent may file an “appeal” and request a hearing on actions taken by school personnel. A letter of appeal should be addressed to the Principal. The letter of appeal must be returned within one school day of the disciplinary action to the Principal’s secretary.

Ordinarily, appeals will be heard by building administrators as follows:

Academic Misconduct	Assistant Principal/Principal
Grade Appeals	Dept. Head/Principal/Review Committee
Suspension	Assistant Principal/Principal

If a student appeals a disciplinary action, the discipline is held in abeyance until the hearing has been held. A student who is appealing a suspension from school should attend school until the hearing is held and a decision is rendered. This right does not exist in the case of investigations leading to possible expulsion, criminal investigations, or concerns for the health and safety of the school community. It also does not exist when a student is involved in expulsion proceedings. Students (or witnesses) who are involved in the appeal process and perjure themselves risk having further disciplinary action taken. Appeals determined to be frivolous or without any substantive merit may be decided without a hearing but on the basis of written documentation only.

Behavioral Expectations

Attendance: Students will attend all regularly scheduled classes and other school activities unless officially excused (see the section on Attendance).

Bicycles and Motorized Bikes: For your protection and convenience, all bicycles (motorized or manual) should be placed in one of the bike racks located near each parking lot. Vehicles parked illegally may be ticketed.

Bus Behavior: The safety of students riding buses is of utmost concern. Behavior expectations on buses are the same as in school. Any violations of these expectations will result in penalties that may include loss of bus privileges and possible suspension.

Cell phones and electronic communication devices

(Tablets, headphones, etc) may be used during non-instructional times in the hallways,

cafeteria, and commons. Cell phones and electronic devices are not to be audible or visible during class periods unless explicit permission has been granted by the classroom teacher. Phones must be set to silent or vibrate (no ring tones should be audible). This rule applies to students who travel to Groves and students who are participating in school related activities off school grounds.

Violation of these guidelines will result in confiscation of the electronic device and the following cumulative consequences:

1st offense: Confiscated electronic devices must be picked-up by student from administration after the school day.

2nd offense: Confiscated electronic device must be picked-up by a parent/guardian from administration after the school day.

Subsequent Offenses: Confiscated electronic device must be picked-up by a parent/guardian from administration after the school day. Repeat offenders of this policy may be required to turn in their phone in the morning and pick it up at dismissal for a designated period of time.

Remember that Electronic Device Usage is a privilege at Seaholm High School. Any abuse of this privilege may result in a student forfeiting the ability to possess electronic devices on the school campus. Teachers may implement additional rules concerning the specific usage of electronic devices in their classes. These rules should be described in their individual class syllabus.

Note: Seaholm High School is not responsible for lost, damaged, or stolen Electronic Devices. Be sure to keep valuable possessions with you and/or locked up at all times.

Courtesy and cooperation for every staff member (teachers, custodians, secretaries, aides, monitors, cafeteria staff, etc.) is expected from each student

Classroom behavior that detracts from instruction and learning is disruptive and inappropriate. Such behavior will result in disciplinary action.

Dress and Appearance: Seaholm High School expects that all students will dress in a way that is appropriate for the school day or for any school sponsored event. Student dress choices should respect the Birmingham Public Schools' intent to sustain a community that is inclusive of a diverse range of identities. The primary responsibility for a student's attire resides with the student and their parent(s) or guardian(s). The school district is responsible for seeing that student attire does not interfere with the health or safety of any student, that student attire does not contribute to a hostile or intimidating atmosphere for any student, and that dress code enforcement does not reinforce or increase marginalization or oppression of any group based on race, sex, gender identity, gender expression, sexual orientation, ethnicity, religion, cultural observance, household income, or body type/size. Any restrictions to the way a student dresses must be necessary to support the overall educational goals of the school and must be explained within this dress code.

1. **Guiding Principle:** Certain body parts must be covered for all students at all times. Clothes must be worn in a way such that genitals, buttocks, navel and breasts are fully

covered with opaque fabric. All items listed in the “must wear” and “may wear” categories below must meet this basic principle.

2. Students **must wear***, while following the basic principle of Section 1 above: A Shirt (with fabric in the front, back, and on the sides under the arms), **AND** Pants/jeans or the equivalent (for example, a skirt, sweatpants, leggings, a dress or shorts), **AND** Shoes.

**Courses that include attire as part of the curriculum (for example, professionalism, public speaking, and job readiness) may include assignment-specific dress, but should not focus on covering bodies in a particular way or promoting culturally-specific attire. Activity-specific shoes requirements are permitted (for example, athletic shoes for PE).*

3. Students **may wear**, as long as these items do not violate Section 1 above: Hats facing straight forward or straight backward. Hats must allow the face to be visible to staff, and not interfere with the line of sight of any student or staff; Religious headwear; Hoodie sweatshirts (wearing the hood overhead is allowed, but the face and ears must be visible to school staff); Fitted pants, including opaque leggings, yoga pants and “skinny jeans”; Pajamas; Ripped jeans, as long as underwear and buttocks are not exposed; Tank tops, including spaghetti straps; Athletic attire; Visible waistbands on undergarments or visible straps on undergarments worn under other clothing (as long as this is done in a way that does not violate Section 1 above).
4. **Students Cannot Wear Clothing with the Following Descriptors:** Tube tops/halter tops; Violent language or images; Images or language depicting drugs or alcohol (or any illegal item or activity), Hate speech, profanity, pornography; Images or language that creates a hostile or intimidating environment based on any protected class or consistently marginalized groups. Any clothing that reveals visible undergarments (visible waistbands and visible straps are allowed); Swimsuits (except as required in class or athletic practice); Accessories that could be considered dangerous or could be used as a weapon; Any item that obscures the face or ears (except as a religious observance).

Dress Code Enforcement

To ensure effective and equitable enforcement of this dress code, school staff shall enforce the dress code consistently using the requirements below.

School administration and staff shall not have discretion to vary the requirements in ways that lead to discriminatory enforcement.

Students will only be removed from spaces, hallways, or classrooms as a result of a dress code violation as outlined in Sections 1 and 4 above. Students in violation of Section 1 and/or 4 will be provided three (3) options to be meet the dress code during the school day:

1. Students will be asked to put on their own alternative clothing, if already available at school, to meet the dress code for the remainder of the day.
2. Students will be provided with temporary school clothing to meet the dress code for the remainder of the day.
3. If necessary, students’ parents may be called during the school day to bring

alternative clothing for the student to wear for the remainder of the day.

No student should be affected by dress code enforcement because of racial identity, sex assigned at birth, gender identity or expression, sexual orientation, ethnicity, cultural or religious identity, household income, body size/type, or body maturity; Students should not be shamed or required to display their body in front of others (students, parents, or staff) in school. “Shaming” includes, but is not limited to:

-kneeling or bending over to check attire fit; measuring straps or skirt length; asking students to account for their attire in the classroom or in hallways in front of others; calling out students in spaces, in hallways, or in classrooms about perceived dress code violations in front of others; in particular, directing students to correct sagged pants that do not expose the entire undergarment, or confronting students about visible bra straps, since visible waistbands and straps on undergarments are permitted; and, accusing students of “distracting” other students with their clothing.

These dress code guidelines shall apply to regular school days and summer school days, as well as any school-related events and activities, such as graduation ceremonies, dances and prom. Student athletic apparel will be defined by safety and competitive performance standards. Students who feel they have been subject to discriminatory enforcement of the dress code should contact their Assistant Principal.

(Adapted from Evanston Township High School Dress Code)

Email usage: All students should be using their district provided email address for communication with school personnel. Students may link their district email account with a personal account to monitor communications.

Language: Appropriate language is expected throughout the building and at school events.

Respectful behavior towards others is expected at all times.

Safety and Liabilities:

Any conduct by a student which would endanger his/her health, safety or that of others is prohibited. Examples of unsafe conduct include racing or reckless driving on school property, throwing objects, running or pushing in corridors or classrooms.

Students and parents are liable for damages which result from deliberate or reckless behavior on school property.

Students are responsible for the safety and care of all school property issued to them or checked out by the student (e.g. textbooks and library books).

School ID Card must be carried at all times and must be made available upon request by faculty or staff. Failure to provide ID upon request will be treated as insubordination (see Prohibited Behaviors). **There is a replacement cost of \$10. Please pay for the replacement id with the Bookkeeper and then to the Media Center** for replacement ID card.

Search and Seizure: To maintain order and discipline in the school and to protect the safety and welfare of students and school personnel, school authorities may search a student, student locker and/or desks, cell phones or electronic devices, automobile, backpacks, purses, and other personal items under the circumstances outlined below and may seize any illegal, unauthorized or contraband materials discovered in the search. A student's failure to permit searches and seizures as provided in this policy will be considered grounds for disciplinary action. A student's person and/or personal effects (e.g. purse, book bag, athletic bag, automobile, cell phone or electronic device) may be searched whenever a school official has reason to believe that the student is in possession of illegal and/or unauthorized materials. If a properly conducted search yields illegal or contraband materials, such findings shall be turned over to proper legal authorities for ultimate disposition.

Student lockers and desks are school property and remain at all times under the control of the school district; however, students are expected to assume full responsibility for the security of their lockers and desks. Students should not expect privacy regarding items placed in school property because school property is subject to search at any time by school officials. Periodic general inspections of lockers and desks may be conducted by school authorities for any reason at any time without notice, without student consent and without a search warrant. Each student will be assigned an individual locker. New and used locks will be available to purchase at registration. If a student has problems with his/her locker, he/she should report it to one of the Assistant Principals.

Emergency Drills

Emergency Drills: The safety of everyone in the building is an important concern of Seaholm. Students will practice several types of drills with faculty and staff. Any student treating these drills in an inappropriate manner or not following directions will be subject to disciplinary action. Students who falsely report an emergency, threat or fire will be referred to the Birmingham Police Department.

Parking Rules

Student parking is available to seniors and juniors only. *Sophomores and freshmen will not be allowed to purchase a permit.* Permits are made available for purchase late in the preceding school year, with seniors receiving first priority to register and pay for a parking permit. Any remaining spaces will be made available to juniors thru a lottery system. There is a \$75 fee to obtain a parking permit. The hangtag will be issued at registration in August. Each parking permit/hangtag will be numbered. Only one replacement permit will be issued during a school year. Replacements permits will be an additional \$25.

IMPORTANT: These permits are NOT transferable. Use of your parking pass by another student will result in loss of parking privilege to the permitted student.

Parking is a privilege, not a right. Students may have their Permits withdrawn and parking privileges revoked without a refund for the following reasons:

-
- Seaholm High School – Student Handbook Rev. 7/6/2022

- Any student that is put on an **attendance notification** for excessive (8 or more) absences (Unexcused and/or Excused Nonexempt) and tardies.
- Any infraction resulting in a second suspension
- Any misbehavior in the parking lot or surrounding community, including unsafe driving or accidents where the student driver is at fault
- Any violation of Seaholm’s drug/alcohol policy
- Drivers with a parking permit will lose their permit if they transport freshmen and/or sophomores out to lunch
- Any use of the lot without a permit. Infraction will result in a suspension of parking privileges.
- Students parking in the student lot are NOT to be in the lot between classes, but only during arrival and departure from school and/or lunch.
- Illegally parked cars will be ticketed by the Birmingham Police Department.
- Any student cars that do NOT have a parking permit and parked on the Seaholm campus can be ticketed by the Birmingham Police Department.

Note: Freshmen or sophomores using a permit without permission or parking without a permit will lose the privilege of obtaining a permit as a junior.

In order to eliminate the problem of freshmen and sophomores violating the closed-lunch policy, all four grades have color-coded ID cards. Sophomores or freshmen who violate the closed-lunch policy may forfeit their opportunity for open lunch as juniors/seniors. Freshmen and sophomores are to remain within the perimeter of the building throughout the school day.

Prohibited Behavior

In order to maintain the safety and well-being of the people in the school, there are behaviors that will not be tolerated.

Fighting/Assaultive Behavior

Seaholm has a zero tolerance for any type of fighting or assaultive behavior. Students who engage in physical confrontations face multi-day out-of-school suspensions. Verbal confrontations which include, but not limited to threats or implied threats are taken seriously. Students who engage in this type of behavior face multi-day out-of-school suspensions also.

Improper conduct:

- Any device or equipment that causes a disruption to the school environment is prohibited.

The refusal by students to follow reasonable directions, including refusal to surrender cell phones, and/or disrespect directed towards adults are behaviors that will not be tolerated and will result in a detention or suspension.

Littering

Students are responsible for the disposal of litter or debris using proper receptacles. Halls, classrooms and cafeteria should be kept clean at all times.

Student Anti-Harassment Policy

An environment of mutual respect for the rights of others must prevail if the Birmingham schools are to fulfill their educational purposes. Students are encouraged to form, hold, and express their own beliefs and opinions. However, a student's exercise of free expression must not interfere with the rights of other students, and all students must be able to learn and grow in an atmosphere which is free from any form of harassment.

Harassment for the purposes of this policy shall be defined as verbal, physical, or written behavior which:

- Intimidates individuals or groups on any basis including race, ethnic background, religion, gender, sexual orientation, national origin, or disability;

- Making submission to or rejections of such conduct, the basis for decisions affecting the student;
- Creating a sexually intimidating, hostile, or offensive school environment which would adversely affect either the performance or psychological well being of a reasonable person in the complaining student's situation.

A student who feels he/she is being harassed by peers or by a staff member of the schools, or is aware of the harassment of another student(s), shall report such incidents to a building administrator, counselor, teacher, school psychologist, school social worker, teacher aide, etc. The staff member receiving a student's report, a parent's report, or observing an incident of alleged harassment will examine the circumstances surrounding the alleged incident. If the receiving staff determines that harassment has occurred, they will take steps to end harassment. In the event that the nature and magnitude of the incident(s) warrant further follow-up measures, staff/faculty members will report charges of harassment to the building Principal or his/her designee.

The building Principal or his/her designee will initiate a further investigation of the harassment charges and implement follow-up measures which s/he believes are appropriate.

Should the investigation of the harassment incident(s) reveal that disciplinary action is warranted, it will be taken in accordance with the policies and procedures adopted by the Board and may include any or all of the following:

- Meeting with the Assistant Principal
- Restorative Practices
- Meeting with all parties involved

The State of Michigan and the City of Birmingham have declared that persons may be fined immediately if caught smoking on the grounds. Administrators may also impose disciplinary consequences up to and including suspension for a first offense. All subsequent offenses will be referred to the Birmingham Police Department. This may result in a misdemeanor ticket, fines, possible court cost, and suspension.

Subsequent Offenses:

The student may be suspended for the remainder of the current season/activity or organization activities, for the remainder of the school year, or for the remainder of their high school athletic/activity career.

Sportsmanship

opponents, coaches, officials, and spectators. In addition, it is understood that any harassment, racial or ethnic slurs said at any time, is unacceptable and will be dealt with accordingly. (See Failure to Comply)

Supplemental Rules and Regulations

Supplemental rules/regulations unique to a given sport or activity may be implemented upon the approval of the principal and building athletic director by the coach. These rules must be in writing and submitted to participants prior to the start of the season.

The building principal, or designee, is the only person who may suspend or exclude a student from athletic participation. Suspension and exclusion are based on the recommendations from the coach, building athletic director or activity sponsor.

Failure to Comply

The student should understand that by violating team, organization or school rules, excluding the tobacco, drugs or alcohol rules, they risk the following penalties:

- a) Ineligibility to participate in the next athletic contest or sponsored activity which could occur on the day of the violation (first offense).
- b) Ineligibility to participate for no less than the next athletic contest in which the student is eligible to participate, exclusion from the program and/or contest by the athlete and parent to seek, and receive counseling from a source approved by the principal (first offense).
- c) Loss of captainship position for current season (first offenses) and ineligibility for future captainships (first or second offense).

- f) Exclusion from athletics/privileged activities for one year from date of violation (third offense).
- g) Ineligible for athletic competition for a period ranging from the remainder of the season up to high school graduation.

Appeal Procedures

The athlete or parent may initiate an appeal of disciplinary action. Appeals must be directed first to the building principal or designee. (See Student Rights, Responsibilities and Due Process Code in the Student Handbook)

disruptive behavior shall be considered shall be dealt with accordingly.

C. Themes/Costumes and Objects:

1. All themes for the season must be approved by a committee comprised of the faculty sponsors, administrators and Maple Forest student leaders at least two weeks prior to the first game of the season.

3. Costumes should be appropriate for school events.
4. Hand held objects, such as rally towels, are permissible but must be approved.
5. Fans must wear shirts at all times.
6. Face painting is permissible.
7. Artificial noisemakers are prohibited and will be confiscated.

5. Harassment of any kind, including racial or sexual comments directed towards players, opposing fans, or officials will not be tolerated. Violators will be removed from the contest and/or subject to disciplinary action.

E. Seating:

1. The Maple Forest is for Seaholm students only and will be in a designated place, reserved for them.
2. Cheerleaders and the Maple Motion are the only student groups allowed access to the field and/or court.
3. Maple Forest Leaders may stand on the court directly in front of the cheering section if room permits. No other Maple Forest students may be on the court.
4. At no time may students be in the playing arena before, during or after the event. The only exception would be half time activities approved by school administration.
5. Upon completion of all contests, teams will be allowed to shake hands and return to their locker room areas prior to anyone gaining access to the field/court.

Spectator Sportsmanship at Athletic Events

The Oakland Athletic and Activities Association principals and athletic directors have agreed to make a strong and united effort in support of good sportsmanship. We have agreed to the following goals:

- A. We believe cheers at games should be of a positive, encouraging nature in support of one's team.
- B. We believe that fan behavior which baits and derides other teams, individual players, coaches or schools is inappropriate.
- C. We believe that officials in games have difficult decisions to make and should be treated with respect, whether one agrees with a decision or not.
- D. We believe that cheers which make use of vulgarities are inappropriate.
- E. We believe that students should be encouraged to use humor, creativity and good taste in

support of their own team.

The principals and athletic directors have agreed to take the following action steps to implement their position:

A. To share with the student body and the community-at-large our support of good sportsmanship.

B. To actively enforce our goals at all games. Persons whose behavior is not consistent with the goals stated above will be dealt with directly by the supervisors of the game.

Game supervisors may talk with offending persons and request they change their behavior, excuse such persons from the game or recommend disciplinary actions by school officials and/or law enforcement agencies. Each student should understand clearly that good sportsmanship is an expectation at both home and away games. We expect that students at away games will cooperate fully with game supervisors of the host school.

Additional Information

Freshmen Program:

The ninth grade athletic program will emphasize self-esteem, individual and team sport skill development. Individual and team success, as measured by a score, plays a very small role as a goal at the ninth grade level.

JV Program:

The junior varsity program will emphasize self-esteem, individual and team sport skill development. Individual and team success, as measured by a score, plays a somewhat more significant role as one of the goals in the junior varsity program.

The junior varsity program is primarily for tenth and highly skilled ninth graders. Eleventh graders, under certain circumstances, may participate in the program.

Varsity Program:

The varsity program emphasizes self-esteem, individual and team sport skill development. Individual and team success, as measured by a score, is a significant element of the varsity program goal.

Note: Some programs may have a varsity level only. In these circumstances, students of all grade levels will be members of the same team.

Note: 9th graders will participate on JV or Varsity teams if no 9th grade team exists for that sport. The decision to field any team will be determined by student interest and district funding.

- Fall teams start practice in August
- Winter teams start practice in November
- Spring teams start practice in March

Students must have a current physical in order to participate.

MHSSA Rules and Regulations for Student Athlete Eligibility

The following set of regulations has been established by the Michigan High School Athletic Association. Student athletes must comply with these regulations if they are to maintain eligibility.

AGE

High school students become ineligible if they reach their 19th birthday before September 1 of a current school year.

PHYSICAL EXAMINATION

Students must have on file, in the school's office, a physician's statement for the current school year (on or after April 15), certifying that he/she is physically able to compete in athletic practices and contests. A signed consent to disclosure of information otherwise protected by FERPA and HIPAA must also be on file prior to participation.

ENROLLMENT

Students must be enrolled in the school they are representing prior to the fourth Friday after Labor Day for the first semester/trimester or second trimester or prior to the fourth Friday of February for the second semester or second or third trimester.

"Enrolled," under this rule, is receiving active credit in at least 66% of full credit load potential for a full time student of the school you participate for. (Generally 4 of 5 or 6 classes on a transcript awaiting grades).

MAXIMUM ENROLLMENT

Students cannot be eligible in high school for more than eight semesters, or twelve trimesters and the seventh and eighth semesters or 10th, 11th and 12th trimesters must be consecutive. Students are allowed four first semesters and four second semesters or four first, four second and four third trimesters of enrollment and competition and cannot compete if they have graduated from high school or accepted a GED. Terms count to the allowed total whether or not a student participates in sports.

ACADEMIC RECORDS

Students must have received credit for at least the equivalent of 66 percent of full credit load potential for a full time student in the previous semester/trimester of enrollment, and must be currently receiving credit toward graduation or a certificate of completion and passing the same on the transcript of the school they represent in competition. The MHSAA minimum period of ineligibility is 60 school days for a student who has not passed 66% at the end of a term.

TRANSFER STUDENTS

A student in grades 9 through 12 who transfers to another high school is not eligible to participate in an interscholastic contest for a set period of time (nearly one half the school year) depending on when the student changes schools unless the student qualifies for immediate eligibility under one or more of 15 stated exceptions and their written interpretations. An other-wise eligible transfer student who changes schools after set dates may not be eligible for MHSAA Tournaments. (Oct. 1 for Fall sports, Feb. 1 for Winter sports, May 1 for Spring sports). International students in the US on an F -1 or J-1 visa should contact the athletic director for allowances and differences under the transfer rule. A transfer student who has played high school sports and who does not meet one of the 15 stated exceptions would be ineligible for 180 school days in that sport if the transfer is into a school where one of the following links existed in the previous 12 months: A student participated on a non-school activity coached, coordinated or directed by any of that high school's parents or administrators or by any of its coaches. The student was coached by a former coach or personal trainer (school, non-school or out-of-season/summer) now on the staff of the new school; or the student attended an open gym at the new school. Under a rule known as an Athletic Motivated Transfer, an ineligible transfer student who is confirmed to have transferred for athletic reasons is ineligible to participate in an interscholastic contest for 180 scheduled school days for the school to which the student transfers. Students and parents anticipating a change of schools should first seek advice from their high school administration.

UNDUE INFLUENCE

(Anti-Recruiting)

The use of undue influence by any person directly or indirectly associated with a student or school to secure or encourage the attendance of a student for athletic purposes, shall cause the student to become ineligible for a minimum of 90 scheduled school days and a maximum of four years. Adults who recruit because of sports face suspension or disconnection from the program for up to four years.

LIMITED TEAM MEMBERSHIP

After practicing with or participating with high school teams, students cannot participate in any athletic competition not sponsored by his or her school in the same sport in the same season. Exceptions include ice hockey and all individual sports, which apply the rule from the point of a student's first participation in a contest or scrimmage, rather than practice. In tennis, the rule applies from the first date that practices are allowed to commence for any player. In skiing it applies when the team holds its first scrimmage or contest. Students in skiing, hockey and soccer may only enter the MHSAA tournament if they have competed in a contest against at least four MHSAA member school teams. Students in individual sports may participate in a maximum of two (2) non-school individual meets or contests during the school season while not representing their school.

ALL-STAR COMPETITION

Students who have represented an MHSAA school in competition in any MHSAA sport shall not compete at any time in any MHSAA tournament sport jurisdiction in all-star contests or national high school championships, regardless of the method of selection. Participation in an all-star contest shall cause that student to become ineligible for a maximum period of one year of school enrollment in that sport.

AWARD STATUS & AWARDS

Students who have represented an MHSAA school in competition in any MHSAA sport cannot receive money or other valuable consideration for participating in MHSAA-sponsored sports or officiating in interscholastic athletic contests, except as allowed by the MHSAA HANDBOOK. Students may accept, for participating in MHSAA sponsored sports, a symbolic or merchandise award which does not have a value over \$25. Banquets, luncheons, dinners, trips and admissions to events, are permitted if accepted "in kind." Awards in the form of cash, merchandise, certificates, or any other type of negotiable document are never allowed.

OAA Policy: The Oakland Activities Association is comprised of 23 schools that share a commitment to excellence in all academic and extra-curricular activities, both athletic and non-athletic. The purpose of the OAA is to promote positive inter-school relations through league activities. To this end, recognizing the diversity of the individuals that member schools represent, all participants are expected to demonstrate a sensitivity to and tolerance of ethnic, cultural, and racial diversity. Any type of ethnic, racial, or prejudicial slur made in any manner or any act of physical violence is unacceptable and will not be tolerated.

Oakland Activities Association Events Policy:

- No disruptive behavior
- No open containers
- No throwing of objects
- No re-entry
- No air horns or whistles
- No taunting
- Preapproved signs only
- Fans from opposing schools stay in designated areas

Note: The educational value of an athletic event is more important than its outcome. Respect for others, including opponents, officials, and fans, is one of those values. There are no excuses for poor sportsmanship, taunting, or trash talk.

to continuing to provide excellence in our schools by facilitating resource sharing, communication, and access to current information.

With the ability to access global information comes the availability of information that may not be considered to be of educational value. Although the District has measures in place designed to restrict minors access to materials harmful to minors, on a worldwide network it is impossible to control all materials that an industrious user may find. The District believes in the benefits of having access to research, information access, communications, and other educational materials electronically.

2260.01 - SECTION 504/ADA PROHIBITION AGAINST DISCRIMINATION BASED ON DISABILITY

Pursuant to Section 504 of the Rehabilitation Act of 1973 ("Section 504"), the Americans with Disabilities Act of 1990, as amended ("ADA") and the implementing regulations (collectively "Section 504/ADA"), no otherwise qualified individual with a disability shall, solely by reason of his/her disability, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. The Board of Education does not discriminate in admission or access to, or participation in, or treatment in its programs or activities. As such, the Board's policies and practices will not discriminate against students with disabilities and will make accessible to qualified individuals with disabilities its facilities, programs, and activities. No discrimination will be knowingly permitted against any individual with a disability on the sole basis of that disability in any of the programs, activities, policies, and/or practices in the District.

"An individual with a disability" means a person who has, had a record of, or is regarded as having, a physical or mental impairment that substantially limits one or more major life activities. Major life activities are functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, eating, sleeping, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, and working.

Major life activities also include the operation of a major bodily function, including, but not limited to, functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions.

An impairment that is episodic in nature or in remission is considered a disability if it would substantially limit a major life activity when active.

The determination of whether an impairment substantially limits a major life activity must be made without regard to the ameliorative effects of mitigating measures such as medication, medical supplies, equipment or appliances, low-vision devices (not including ordinary eyeglasses or contact lenses), prosthetics (including limbs and devices), hearing aids and cochlear implants or other implantable hearing devices, mobility devices, oxygen therapy equipment or supplies, assistive technology, reasonable accommodations or auxiliary aids or services, or learned behavioral or adaptive neurological modifications.

With respect to public preschool, elementary and secondary educational services, a qualified person with a disability means a disabled person:

- A. who is of an age during which nondisabled persons are provided educational services;
- B. who is of any age during which it is mandatory under Michigan law to provide educational services to disabled persons; or

- C. to whom the State is required to provide a free appropriate public education pursuant to the Individuals with Disabilities Education Improvement Act (IDEIA).

With respect to vocational education services, a qualified person with a disability means a disabled person who meets the academic and technical standards requisite to admission or participation in the vocational program or activity.

District Compliance Officer

The following person is designated as the District Section 504 Compliance Officer/ADA Coordinator ("District Compliance Officer"):

Assistant Superintendent for Human Resources
31301 Evergreen Road
Beverly Hills, MI 48025-3800
248-203-3000
248-203-3007 (fax)
www.birmingham.k12.mi.us

The District Compliance Officer is responsible for coordinating the District's efforts to comply with and fulfill its responsibilities under Section 504 and Title II of the ADA. A copy of Section 504 and the ADA, including copies of the implementing regulations, may be obtained from the District Compliance Officer.

The District Compliance Officer will oversee the investigation of any complaints of discrimination based on disability, which may be filed pursuant to the Board's adopted internal complaint procedure, and will attempt to resolve such complaints.

The Board will provide for the prompt and equitable resolution of complaints alleging violations of Section 504/ADA. The Board will further establish and implement a system of procedural safeguards in accordance with Section 504, including the right to an impartial due process hearing.

Training

The District Compliance Officer will also oversee the training of employees in the District so that all employees understand their rights and responsibilities under Section 504 and the ADA, and are informed of the Board's policies, administrative guidelines and practices with respect to fully implementing and complying with the requirements of Section 504/ADA.

The Board will provide in-service training and consultation to staff responsible for the education of persons with disabilities, as necessary and appropriate.

Facilities

No qualified person with a disability will, because the District's facilities are inaccessible to or unusable by persons with disabilities, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity to which Section 504/ADA applies.

For facilities constructed or altered after June 3, 1977, the District will comply with applicable accessibility standards. For those existing facilities constructed prior to June 3, 1977, the District is committed to operating its programs and activities so that they are readily accessible to persons with disabilities. This includes, but is not limited to, providing accommodations to parents with disabilities who desire access to their child's educational program or meetings pertinent thereto. Programs and activities will be designed and scheduled so that the location and nature of the facility or area will not deny a student with a disability the opportunity to participate on the same basis as students without disabilities.

Education

The Board is committed to identifying, evaluating, and providing a free appropriate public education (FAPE) to students within its jurisdiction who are disabled within the definition of Section 504, regardless of the nature or severity of their disabilities.

If a student has a physical or mental impairment that significantly limits one or more major life activities, the Board will provide the student with a free appropriate public education. An appropriate education may include regular or special education and related aids and services to accommodate the unique needs of students with disabilities. For disabled students who are not eligible for specially designed instruction under the IDEIA, the related aids and services (including accommodations/modifications/interventions) they need in order to have their needs met as adequately as the needs of nondisabled students are met, shall be delineated, along with their placement, in a Section 504 Plan (Form 2260.01A F13). Parents/guardians/custodians ("parents") are invited and encouraged to participate fully in the evaluation process and development of a Section 504 Plan.

The Board is committed to educating (or providing for the education of) each qualified person with a disability who resides within the District with persons who are not disabled to the maximum extent appropriate. Generally, the District will place a person with a disability in the regular educational environment unless it is demonstrated that the education of the person in the regular environment, even with the use of supplementary aids and services cannot be achieved satisfactorily. If the District places a person in a setting other than the regular educational environment, it shall consider the proximity of the alternate setting to the person's home.

The District will provide non-academic extracurricular services and activities in such a manner as is necessary to afford qualified persons with disabilities an equal opportunity for participation in such services and activities. Non-academic and extracurricular services

and activities may include counseling services, physical recreational athletics, transportation, health services, recreational activities, special interests groups or clubs sponsored by the District, referrals to agencies that provide assistance to persons with disabilities, and employment of students. In providing or arranging for the provision of meals and recess periods, and non-academic and extracurricular services and activities, including those listed above, the District will verify that persons with disabilities participate with persons without disabilities in such services and activities to the maximum extent appropriate.

Notice

Notice of the Board's policy on nondiscrimination in education practices and the identity of the District's Compliance Officer will be posted throughout the District, and published in the District's recruitment statements or general information publications.

3122 - NONDISCRIMINATION AND EQUAL EMPLOYMENT OPPORTUNITY

The Board of Education is committed to maintaining a learning/working environment in which all individuals are treated with dignity and respect, free from discrimination and harassment. There will be no tolerance for discrimination or harassment on the basis of race, color, national origin, religion, sex, sexual orientation, marital status, genetic information, disability or age. The District prohibits harassment and other forms of discrimination whether occurring at school, on District property, in a District vehicle, or at any District related activity or event. The Superintendent will designate compliance officers and develop and implement regulations for the reporting, investigation and resolution of complaints of discrimination or harassment.

The Superintendent shall appoint a compliance officer whose responsibility it will be to ensure that Federal and State regulations are complied with and that any inquiries or complaints are dealt with promptly in accordance with law. S/He shall also ensure that proper notice of nondiscrimination for Title II, Title VI, and Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendment Act of 1972, and Section 504 of the Rehabilitation Act of 1973 is provided to students, their parents, staff members, and the general public. Any sections of the District's collectively-bargained, negotiated agreements dealing with hiring, promotion, and tenure shall contain a statement of nondiscrimination

similar to that in the Board's statement above. In addition, any gender-specific terms should be eliminated from such contracts.

5136 - ELECTRONIC DEVICES

For the purpose of this policy, "electronic devices" are defined as, but not limited to: cellular telephones, laptops, pagers, and all other devices, including electronic communication devices (ECDs) and electronic storage devices (ESDs), in which the major purpose of the device is to transmit and/or receive voice, imaging, and/or alphanumeric communications.

A student may possess and use electronic devices in school, on school property, including school buses or other Board-provided vehicles, at after school activities and at school-related functions, provided that during times to be determined by the building administrator, or designee in charge of the activity, the electronic devices remain off.

Also, during school activities when directed by the administrator or sponsor, electronic devices shall be turned off and stored away out of sight.

The use of electronic devices in locker rooms or bathrooms is prohibited at any time.

Students are prohibited from using electronic devices to capture, record or transmit the words (i.e., audio) and/or images (i.e., pictures/video) of any student, staff member or other person in the school or while attending a school-related activity, without the express prior notice and explicit consent for the capture, recording or transmission of such words or images. Using an electronic device to take or transmit audio and/or pictures/video of individuals without his/her consent is considered an invasion of privacy and is not permitted, unless authorized by the building administrator, or designee.

Possess and use of electronic devices by a student is a privilege, which may be revoked by the District if a student fails to abide by the terms of this policy, or otherwise engages in misuse of this privilege. No expectation of confidentiality will exist in the use of electronic devices on school property.

Students are prohibited from using electronic devices in any way that might reasonably create in the mind of another person an impression of being threatened, humiliated, harassed, embarrassed or intimidated. See Policy 517.01 - Bullying and Other Aggressive Behavior Toward Students.

Students are also prohibited from using electronic devices to capture and or transmit test information or any other information in a manner constituting fraud, theft, cheating or academic dishonesty. Likewise, students are prohibited from using their electronic devices to receive such information.

Violation of this policy may result in disciplinary action and/or confiscation of the electronic device. The building administrator may also refer the matter to law enforcement if the violation involves an illegal activity. Electronic devices in District custody will not be searched or otherwise tampered with unless building administrators reasonably suspect that the search is required to discover evidence of a violation of the law or other school rules. Any search will be conducted in accordance with Policy **5771** - Search and Seizure.

The student who possesses an electronic device shall assume responsibility for its care. At no time shall the District be responsible for theft, loss or damage to electronic devices brought onto its property.

The taking, disseminating, transferring, or sharing of obscene, pornographic, lewd, illegal images or photographs, or items that disrupt the educational process, whether by electronic data transfer or otherwise (commonly called texting, 'sexting', emailing, etc.) may constitute a crime under State and/or Federal law. Any person taking, disseminating, transferring, or sharing obscene, pornographic, lewd, illegal images or photographs, or items that disrupt the educational process will be disciplined, and may be reported to law enforcement and/or other appropriate State or Federal agencies.

5330 - USE OF MEDICATIONS

Medication Given by Staff to Students

The administration of prescribed medication and/or certain physician prescribed procedures to a student during school hours (including school sponsored before and after school child care and other school sponsored activities) will be permitted only when failure to do so would jeopardize the health of the student, or the student would not be able to attend school if the medication or procedures were not made available during school hours.

A school administrator, teacher, or other school employee designated by the school administrator may administer prescription medication and/or certain physician-prescribed procedures to students upon the written request by the parent/guardian, along with instructions from the attending physician, and in accordance with administrative guidelines established by the Superintendent or designee.

The guidelines shall express that employees will not be required to perform any medical procedure that would be considered "skilled nursing" as defined by the Oakland County Health Division. Procedures in question shall be referred to the Director of Community Relations for approval.

Form #BH-97A entitled, "Permission to Administer Medication," must be completed prior to the administration of any medication or treatment.

Staff must administer medication in the presence of another adult.

Student Self-Administered Medication

State law permits students to physically possess inhalers and Epi-Pens prescribed by their physicians. However, form #BH 97-A must be completed prior to the use of these medications.

Students are permitted to possess only Epi-Pens and/or inhalers while at school or attending school events. All other prescription and non-prescription medication is dispensed through the principal's or designee's office in accordance with administrative guidelines. Students are prohibited from distributing medication to others, under any circumstances.

Unauthorized use of prescription or non-prescription medication may be considered a violation of the District's Substance Abuse Prevention Policy **5530**.

Exceptions to this policy may be made by the Deputy Superintendent after discussion with the student's parent/guardian and appropriate administrative personnel.

Revised 6/09

5517.01 - BULLYING AND OTHER AGGRESSIVE BEHAVIOR TOWARD STUDENTS

It is the policy of the District to provide a safe and nurturing educational environment for all of its students.

This policy is intended to protect all students from bullying/aggressive behavior, including cyberbullying, regardless of the subject matter or motivation for such impermissible behavior.

Bullying or other aggressive behavior toward a student, whether by other students, staff, or third parties, within the school community, including Board members, parents, guests, contractors, vendors, and volunteers, is strictly prohibited. This prohibition includes written, physical, verbal, and psychological abuse, including hazing, gestures, comments, threats, or actions to a student, which cause or threaten to cause bodily harm, reasonable fear for personal safety or personal degradation.

Demonstration of appropriate behavior, treating others with civility and respect, and refusing to tolerate bullying is expected of administrators, faculty, staff, and volunteers to provide positive examples for student behavior.

This policy applies to all "at school" activities in the District, including activities on school property, in a school vehicle, and those occurring off school property, if the student is attending any school-sponsored, school-approved or school-related activity or function, such as field trips or athletic events where students are under the school's control.

Bullying or other aggressive behavior toward a student, including cyberbullying, that is not initiated at a location described above, or using a device or service owned by or under the control of the District, is nevertheless, covered by this policy if the incident could likely lead to a material or substantial disruption of the school learning environment for one (1) or more students and/or the orderly day-to-day operations of any school or school program.

Notification

Notice of this policy will be **annually** circulated to and posted in conspicuous locations in all school buildings and departments within the District and discussed with students, as well as incorporated into the student and parent/guardian handbooks.

Parents or legal guardians of the alleged victim(s), as well as of the alleged aggressor(s), shall be promptly notified of any complaint or investigation as well as the results of the investigation to the extent consistent with student confidentiality requirements. A record of the time and form of notice or attempts at notice shall be kept in the investigation file.

To the extent appropriate and/or legally permitted, **confidentiality** will be maintained during the investigation process. However, a proper investigation will, in some circumstances, require the disclosure of names and allegations. Further, the appropriate authorities may be notified, depending on the nature of the complaint and/or the results of the investigation.

Implementation

The Superintendent is responsible to implement this policy, and may develop further guidelines, not inconsistent with this policy.

This policy is not intended to and should not be interpreted to interfere with legitimate free speech rights of any individual. However, the District reserves the right and responsibility to maintain a safe environment for students, conducive to learning and other legitimate objectives of the school program.

Procedure

Any student who believes s/he has been or is the victim of bullying, hazing, or other aggressive behavior should immediately report the situation to the principal or assistant principal. The student may also report concerns to a teacher or counselor who will be responsible for notifying the appropriate administrator.

Every student is encouraged, and every staff member is required, to report any situation that they believe to be bullying or other aggressive behavior directed toward a student. Reports shall be made to those identified above. Reports may be made anonymously, but formal disciplinary action may not be taken solely on the basis of an anonymous report.

The Principal (or other administrator as designated) shall promptly investigate and document all complaints about bullying, aggressive or other behavior that may violate this policy. The investigation must be completed as promptly as the circumstances permit

If the investigation finds an instance of bullying or aggressive behavior has occurred, it will result in prompt and appropriate remedial action. This may include up to expulsion for students, up to discharge for employees, exclusion for parents, guests, volunteers and contractors, and removal from any official position and/or a request to resign for Board members. Individuals may also be referred to law enforcement or other appropriate officials.

If, during an investigation of a reported act of harassment, intimidation and/or bullying/cyberbullying, the Principal or appropriate administrator believes that the

reported misconduct may have created a hostile learning environment and may have constituted unlawful discriminatory harassment based on a Protected Class, the Principal will report the act of bullying and/or harassment to one of the Anti-Harassment Compliance Officers so that it may be investigated in accordance with the procedures set forth in Policy 5517 - Anti-Harassment.

The individual responsible for conducting the investigation shall document all reported incidents and report all verified incidents of bullying, aggressive or other prohibited behavior, as well as any remedial action taken, including disciplinary actions and referrals, to the Superintendent. The Superintendent shall submit a compiled report to the Board on an annual basis.

In instances where bullying or other aggressive behavior is believed to be based on race, color, national origin, sex or disability, a complaint should also be filed with the School District's designated Compliance Officer. The School District will, then in addition to the above, follow its policies and practices for investigating claims of discrimination.

Non-Retaliation/False Reports

Retaliation or false allegations against any person who reports, is thought to have reported, files a complaint, participates in an investigation or inquiry concerning allegations of bullying or aggressive behavior (as a witness or otherwise), or is the target of the bullying or aggressive behavior being investigated, is prohibited and will not be tolerated. Such retaliation shall be considered a serious violation of Board policy, independent of whether a complaint of bullying is substantiated. Suspected retaliation should be reported in the same manner as bullying/aggressive behavior.

Making intentionally false reports about bullying/aggressive behavior for the purpose of getting someone in trouble is similarly prohibited and will not be tolerated. Retaliation and intentionally false reports may result in disciplinary action as indicated above.

Prevention/Training

The District shall support programs involving school staff, students, clubs or other student groups, administrators, volunteers, parents, law enforcement, community members, and other stakeholders, aimed at the prevention of bullying or other aggressive behavior.

The District shall provide all students annual training on preventing, identifying, responding to, and reporting incidents of bullying and other aggressive behavior.

The District shall provide all parents/legal guardians annual training on preventing, identifying, responding to, and reporting incidents of bullying, cyberbullying and other aggressive behavior.

- B. adversely affecting a student's ability to participate in or benefit from educational programs or activities by placing a student in reasonable fear of physical harm or by causing substantial emotional distress;
- C. having an actual and substantial detrimental effect on a student's physical or mental health; or
- D. causing substantial disruption in, or substantial interference with, the orderly operation of the school.

"At school" means in a classroom, anywhere else on school premises, on a school bus or other school-related vehicle and at a school-sponsored activity or event, whether or not the activity or event is held on school premises. *"At school"* includes the off-premises use of a telecommunications access device or telecommunications service provider if the device or service provider is owned by or under the control of the District.

5530 - SUBSTANCE ABUSE PREVENTION

The Board of Education recognizes that the misuse of drugs is a serious problem with legal, physical, and social implications for the entire school community.

As the educational institution of this community, the schools should strive to prevent drug abuse and help drug abusers by educational, rather than punitive, means.

For purposes of this policy, "drugs" shall mean:

- A. all dangerous controlled substances as so designated and prohibited by Michigan statute and/or Federal statute;
- B. all chemicals which release toxic vapors and may be used as inhalants;
- C. all alcoholic beverages;
- D. any prescription or non-prescription drug, except those for which permission to use in school has been granted pursuant to Board policy;
- E. counterfeit controlled substances or controlled substances analogues ("look-alikes" drugs);
- F. anabolic steroids;
- G. any other illegal substance so designated and prohibited by law.

For purposes of this policy, "drugs" shall not mean prescription or non-prescription drugs, medications, vitamins or similar substances such as pain relievers, analgesics, laxatives or cough medicines so long as such substances are possessed by students for their individual use and not for any improper purpose and the possession by the student is in accordance with Policy **5530** - Use of Medications.

In accordance with Federal and State law, the Board hereby establishes a "Drug-Free School Zone" that extends 1000 feet from the boundary of any school property. The Board prohibits the use, possession, sale, concealment, delivery, or distribution of any drug or any drug-related paraphernalia at any time on District property, within the Drug-Free School Zone, or at any District-related event.

The Superintendent or designee shall establish administrative guidelines necessary to implement this policy.

5600 - RIGHTS AND RESPONSIBILITIES (CODE OF CONDUCT)

Preamble

The District recognizes:

- A. The primary intent of society in establishing a system of public schools is to provide an opportunity for learning;
- B. An environment that fosters learning places paramount importance on the achievement of educational objectives; and
- C. Educational objectives include both the mastery of academic disciplines and the responsible exercise of civic rights and responsibilities.

This Code of Conduct is concerned with individual rights in the context of the school community. We believe that students, teachers, administrators and parents should create the rules which govern that community. We are mindful of the freedoms guaranteed by the Constitutions of the United States of America and the State of Michigan. Any Code of Conduct should: assist students in the learning and understanding those rights; how to exercise them responsibly; and promote the practical realization of the Policy which these bases of our government envision.

This preamble is a point of departure. The Code of Conduct itself, and the administrative guidelines promulgated to implement the Code of Conduct, will provide greater detail about the way in which each individual student must exercise his/her rights and responsibilities in the school community. Both the Code of Conduct and the administrative guidelines will seek to define the consequences which will occur when a student fails to meet his/her responsibilities.

Each student has a basic right to educational opportunities. When a student infringes upon this basic right of others, it becomes the duty of the District to discipline this student and restore the conditions that promote learning for all students. It is also the District's responsibility to respect, at all times, the rights and privileges of the students as defined in this Code of Conduct. In disciplining students and regulating their conduct, the District strives to assure that guidelines and consequences are appropriate and proportionate in nature, consistent with applicable law, constructive and limited to that reasonably necessary to promote the District's educational objectives.

The Superintendent or designee shall publish to all students and their parents the rules of this District regarding student conduct, the consequences that may be imposed for breach of those rules, and the due process procedures that will be followed in administering the Code of Conduct.

Character Education

Character education is integral to all that is done in school, and most effective when school, home and community work together. The oldest and most critical mission of schools, character education focuses on core human values, including virtue, good habits and disposition. Character education is about ways of being that are constantly practiced and developed to strengthen students from within. The goal is to help students become morally responsible, self-disciplined citizens.

It is expected that students will develop:

- A. ***Positive Attitude*** – Students should strive to be hopeful and confident in their thoughts and actions about themselves, others and the future.
- B. ***Honesty and Integrity*** – Students should show others, by their just and principled words and actions, that they are deserving of their trust.
- C. ***Respect and Kindness*** – Students should show empathy and regard for others, the environment and the world around them.

- D. ***Responsibility and Accountability*** – Students should show that they follow through on commitments and are answerable for their actions and decisions.

Positive Behavior Support

The District strives to provide a system that will support students' efforts to manage their own behavior and promote academic achievement. An effective behavior support system is a proactive, positive, skill-building approach for the teaching and learning of successful student behavior. Positive behavior support systems ensure effective strategies that promote pro-social behavior and respectful learning environments.

Conduct in School and at School Activities

The Superintendent or designee shall establish administrative guidelines to assure that no person can, without consequence, disrupt the educational process by that person's actions, manners, or lack of consideration and cooperation.

Daily attendance of all who are enrolled in the Michigan public schools is required in accordance with State law and Board policies. Students will attend all regularly scheduled classes unless officially excused. Excessive tardiness to school or individual classes will not be tolerated.

The use, possession, or distribution of alcoholic beverages, illegal drugs, devices or contrivances intended for or adapted for use of any illegal drugs is prohibited on school grounds and at school activities. (See Policy and AG 5530 - Substance Abuse Prevention.)

Smoking by students is not permitted on school property or at school-sponsored activities. (See Policy 5530.01 - Smoking.)

Dress and appearance must not present health or safety problems or interfere with the educational process.

Students must obey the proper directions of District personnel. All persons must, upon request, identify themselves to school personnel in the school building, on school grounds, or at any school-sponsored event.

Participation in extra-curricular activities is a privilege. The District expects its students to behave in an exemplary fashion at all times, and requires appropriate behavior during any District-sponsored extra-curricular activity. If the District employee in charge of supervising an extra-curricular activity determines that a student is behaving inappropriately, that employee may remove the student from the activity. Such removal may, in appropriate cases, be at the expense of the student and his/her family. The student may be subject to additional discipline as provided in these guidelines.

Students at school-sponsored, off-campus events shall be governed by District rules and guidelines and are subject to the authority of District personnel.

Students may not leave the school grounds during the school day nor be in areas of the school grounds declared off-limits unless permission has been granted by proper school officials.

Access to the school buildings or school grounds during the school day is limited to students. All others must report first to the principal's office for permission to visit or use these facilities.

Student Rights and Responsibilities

The following rights and responsibilities are listed to protect and to preserve all students' status as citizens:

- A. Freedom of Speech – Students are entitled to express their opinions verbally. Such verbal opinions shall not interfere with the rights of others to express themselves. Verbal opinions must not disrupt the educational process. The use of obscene language is prohibited.
- B. Freedom of Assembly – All meetings in school buildings or on school grounds may function only as authorized as part of the formal educational process of the school or as authorized by proper school officials. Students have the right to assemble peaceably; however, there is an appropriate time and place for the expression of opinions and beliefs. Conducting or participating in demonstrations which disrupt or interfere with the operation of the school or classroom is inappropriate and prohibited.
- C. Freedom to Publish – Students are entitled to express in writing their personal opinion. The distribution of such material may not interfere with, disrupt, or distract from the operation of the school. Such written expressions of personal opinions must be signed by the author(s).

Students who edit, publish, or distribute hand-written, printed, or duplicated materials within the school or on school grounds must assume responsibility for the content of such publications.

Obscenity is prohibited in all publications. School-sponsored publications should be free from policy restrictions outside of the normal rules for responsible journalism.

Search and Seizure

Lockers that are assigned to students remain the property of the District. Students have no reasonable expectation of privacy in their lockers and lockers may be searched at any time with or without reasonable suspicion. A search in the student's absence, however, shall only be conducted where there is reasonable belief that a clear and present danger to health and/or safety exists, or where there is a search warrant. General searches of school property may be conducted only by the school principal or designee for legitimate cause that may include health or order. (See Policy 5771 - Search and Seizure.)

Illegal items (firearms, weapons, drugs, etc.) or other items reasonably determined to be a threat to the safety or security of students or the school will be removed from student possession. Items that are used to disrupt or interfere with the operation of the school may be temporarily removed from student possession. Search of persons, or belongings (including electronic devices) shall be done only with good reason by the school principal or designee with a witness present. The student will have the right to know the reason prior to the search of person or belongings.

Procedural Rules

The hallmark of the exercise of disciplinary authority shall be reasonableness and fairness.

Substantial effort shall be made by staff members to resolve problems through effective utilization of District resources in cooperation with the student and his/her parent/guardian. Such efforts must be recorded by the school administrator and should be recorded by the staff member and kept on file.

No student shall be detained by the District after the close of the regular school day unless the student's parent/guardian, or designated adult when the parent/guardian is unavailable, has been contacted and informed that the student will be detained.

No student shall be refused transportation services until the parent/guardian has been notified.

During emergency removal or suspension up to ten (10) days, the student will be provided the course content (i.e. worksheets, handouts, assignments), except for notes and other information provided by the teacher during the class period that would be considered part of the in-class lesson. Any content that would have received a grade will not be graded; the ungraded content will not be averaged into the student's final grade for the class.

A student shall be given make-up privileges if a test or other major evaluation occurs during the time of the debarment or short-term suspension. Make-up privileges shall be extended for unit or chapter tests, term papers, projects, class presentations, etc.

It shall be the responsibility of the student to contact each teacher for course content and/or to arrange for make-up privileges.

During suspension greater than ten (10) days or expulsion up to 180 days, a student shall have access to course content.

Students shall not be subject to "corporal punishment," as defined in M.C.L. 380.1312.

Seclusion and/or restraint shall only be used in accordance with the policy adopted by the District in accordance with State law and Board Policy 5630.01.

Criminal Acts

A student shall not commit or participate in any conduct or act defined as a crime by State or Federal laws. Such acts may be considered to be violations of this Code of Conduct.

Misconduct in Another School System

A student who has been found to have engaged in misconduct resulting in expulsion or long-term suspension in another school system, or who has withdrawn from a school system prior to a hearing on alleged misconduct, may be charged with a violation of this Code of Conduct as a result of the prior misconduct. All applicable due process procedures will be followed in determining whether discipline will be imposed by the District.

The Superintendent or designee shall establish administrative guidelines, in accordance with State and Federal law and regulation, for suspension and/or expulsion for misconduct in another District.

Off-Campus Misconduct

Students in attendance at school-sponsored, off-campus events are subject to the direction and authority of District personnel and are governed by all applicable rules and guidelines of the District. In addition, students' off-campus conduct which may have an effect on the general safety and welfare of students, staff, or others in the school community may result in disciplinary action, whether or not part of a school-sponsored activity.

Revised 10/17/17

STUDENT CODE OF CONDUCT (BOE Approved 06/05/2018)

PREAMBLE

The District recognizes:

- A. The primary intent of society in establishing a system of public schools is to provide an opportunity for learning;
- B. An environment that fosters learning places paramount importance on the achievement of educational objectives; and
- C. Educational objectives include both the mastery of academic disciplines and the responsible exercise of civic rights and responsibilities.

This Student Code of Conduct is concerned with individual rights in the context of the school community. To create and maintain an appropriate school environment, respect for the rights of others, consideration of their privileges and cooperative citizenship shall be expected of all members of the school community. Students are expected to show respect for real and personal property, pride in their work, attain high achievement within the range of their ability, and demonstrate exemplary personal standards of courtesy, decency and honesty.

The Code of Conduct identifies standards of conduct needed to support the educational objectives of the District and to protect each student's right to a safe, orderly, and productive learning environment. While reasonable rules and regulations regarding behavior are necessary for a safe and orderly school environment, the District affirms its commitment to support the efforts of all students to manage their own behavior. Support for students may be demonstrated in a variety of ways, including the following examples:

- A. School practices and policies that promote appropriate school behavior and respectful learning environments.
- B. Communication of student behavioral expectations to parents.
- C. Communication of clearly stated expectations for student behavior to students.
- D. Teachers using effective instructional and classroom management strategies.
- E. Appropriate consequences for unacceptable behaviors.
- F. Interventions and alternatives to exclusion from school, including restorative practices, whose purpose is to prevent the reoccurrence of inappropriate behavior. A sampling of alternatives to exclusion is listed elsewhere in this document.
- G. Specialized, intensive and individualized interventions for students whose pattern of unacceptable behavior warrants it.

It is also the District's responsibility to respect, at all times, the rights and privileges of the students as defined in this Student Code of Conduct. In disciplining students and regulating their conduct, the District strives to assure that guidelines and consequences are appropriate and proportionate in nature, consistent with applicable law, constructive and limited to that reasonably necessary to promote the District's educational objectives.

The Student Code of Conduct also provides a clearly defined opportunity for a student who stands accused of unacceptable conduct to a fair appeal process and allow opportunity for the student's learning to continue.

The hallmark of the exercise of disciplinary authority shall be reasonableness and fairness. Substantial effort shall be made by staff members to resolve problems through effective utilization of District resources in cooperation with the student and his or her parent or guardian.

The District strongly encourages students who witness or are otherwise made aware of potential conduct by another student that is or may be dangerous to other students or staff members to report the conduct to an administrator, staff member or other adult. While the District understands that peer pressure and a sense of loyalty make reporting the conduct of others challenging, as students mature they recognize that the protection of the safety of others is often more important than protecting a fellow student who has engaged or is about to engage in dangerous conduct.

Application and Scope of the Code

The Student Code of Conduct covers all students enrolled in the Birmingham Public Schools (including during summer school), and is applicable to a student's conduct:

1. On any premises owned, leased or used by the District;
2. In a motor vehicle owned or leased by the District or being used for a school-related purpose;
3. At a school-related event, activity or function;
4. Traveling (by vehicle, on a bicycle, on foot, or any other way) to or from school or a school-related event, activity or function; and
5. In any other location, where the conduct has a sufficient connection to or with the District, District personnel or students, or District property that it adversely and significantly affects, interferes with or endangers good order or the educational environment at school, or the proper functioning of the educational process.

The fact that the Code of Conduct applies to all students in the District does not mean that all offenses are to be handled in the same way, regardless of the age and grade level of the student. Ranges of possible consequences for each offense are provided, and the District expects and intends that students' age and grade levels will be factors taken into account in determining a proper level of consequence.

Implementation of the Code

Implementing and enforcing the Code is primarily the responsibility of the principal. When used in the Code, the term “principal” is the assigned principal, an acting principal, an assistant principal, or any other individual so designated by the principal or central administration. Principals shall keep records of disciplinary action.

When the nature of an offense permits, disciplinary consequences will occur progressively, with the intent to provide guidance and counseling whenever possible. In cases of severe offense, however, it may be necessary to proceed directly to an advanced level of disciplinary action.

Removal of a Student from School Pending Investigation

The Board has determined that when an administrator deems it necessary, the administrator may temporarily remove from school a student charged with, suspected of committing, or suspected of being involved in, an infraction or incident, for a reasonable period of time necessary:

- A. to complete the investigation of an alleged infraction or incident,
- B. to defuse a situation that could become worse without such removal, or
- C. in unusual circumstances, to permit the student to be accorded due process, as defined in this policy, which shall be accorded as soon as possible thereafter, or
- D. for other reason(s) as renders such a removal in the best interests of a particular student, a school, its students, or its staff.

Such a removal shall not constitute disciplinary action, although the infraction or incident that prompts it may conclude in disciplinary action. If the incident that has prompted removal results in discipline, the time during which the student has been removed from school shall be credited to any disciplinary time imposed.

Confidentiality of Disciplinary Records

A student's record of disciplinary action is confidential. Parents or guardians may request and receive a copy of a school record of disciplinary action about their own child. Except as required by law or State mandate, or in keeping with a parent's written request, or a student's written request if age 18 or older, a student's record of disciplinary action is not released.

Reporting Certain Offenses to Local Police

In compliance with MCL §380.1308 and the Response Guide for Reportable Incidents issued as part of the Statewide School Safety Information Policy, the District is required to report certain incidents of student misconduct or other activity on school property to local police agencies within the limits of the Family Educational Rights and Privacy Act. The following must be reported:

1. An active violence incident
2. An incident involving a threat of violence or serious incident that could jeopardize the safety of students and staff (such as an armed student, weapons on school property, intruder, active threat, hostage incident, gang violence, etc.).
3. A death or homicide.

4. A physical assault in which the victim alleges injury, the victim is a member of school staff, there is injury to the victim or suspect that requires medical attention, or the suspect used a weapon during the assault.
5. A drive-by shooting.
6. An arson, explosive or fire incident that could jeopardize the safety or students or staff.
7. A bomb threat.
8. A suicide attempt.
9. A threat of suicide (to the extent regarded as a genuine threat using the District's threat assessment protocol).
10. A sexual assault (criminal sexual conduct) incident.
11. A robbery or extortion.
12. A significant (over \$100 in value) larceny, or larceny motivated by hate or gang-related.
13. A trespass incident where the trespasser is asked to leave and fails to do so, where the trespasser could jeopardize the safety of students or staff.
14. An unauthorized removal of a student from school.
15. Drug or alcohol use or overdose.
16. Drug or alcohol possession or sale.
17. An incident on a school bus or at a bus stop that could jeopardize the safety of students or staff.

Building administrators have the discretion to report other types of student misconduct to local police agencies in the interests of protecting the safety of students and staff. Police interrogation of students, if any, shall comply with Board Policy and Administrative Guideline 5540.

Non-Discrimination

The District does not discriminate on the basis of race, color, national origin, sex, gender orientation, disability, or age in the imposition of discipline upon District students.

Considerations Before Imposition of Discipline; Restorative Practices.

In accordance with state law and Board Policy 5610.02, and except as specifically provided below, before a student may be suspended, expelled or permanently expelled, the District administrators making the disciplinary decision shall consider each of the following factors:

1. the student's age;
2. the student's disciplinary history;
3. whether the student is a student with a disability;
4. the seriousness of the violation or behavior committed by the student;
5. whether the violation or behavior committed by the student threatened the safety of any student or staff member;
6. whether restorative practices will be used to address the violation or behavior committed by the student; and
7. whether a lesser intervention would properly address the violation or behavior committed by the student.

The fact that consideration of these factors has occurred shall be documented in the record of the disciplinary decision. The Superintendent has developed an appropriate checklist to be used to document consideration of these factors.

Except as provided below, the District has discretion over whether to suspend, expel or permanently expel a pupil. In exercising this discretion, there is a rebuttable presumption that a suspension, expulsion or permanent expulsion is not justified unless administration can demonstrate that it considered each of the factors listed above.

The obligation to consider the factors listed above shall not apply to a student being permanently expelled under state law for possessing a firearm in a weapon-free school zone.

The District shall consider using restorative practices as an alternative or in addition to suspension or expulsion of a student. If the District suspends or expels a student, the District shall consider using restorative practices in addition to suspension or expulsion. The obligation to consider restorative practices shall not apply to a mandatory expulsion for possession of a firearm in a weapon-free school zone.

“Restorative practices” means practices that emphasize repairing the harm to the victim and the school community caused by a student’s misconduct. Restorative practices shall be considered as an alternative or in addition to suspension or expulsion of a student. The Superintendent has established procedures for the use of restorative practices within the District.

OFFENSES

Listed below are offenses committed by District students that may lead to discipline, along with a range of possible penalties.

I. Offenses Against Other Students or Staff

Offenses Involving Physical Altercations Between Students.

Physical altercations between students may involve different levels of severity. This Code recognizes three such levels: “inappropriate physical behavior;” “fighting,” which is more serious; and the most serious, “physical assault.” Ordinarily, a fight will not rise to the level of a physical assault, although an act that causes or incites a fight may constitute a physical assault if it is sufficiently serious – *i.e.*, unprovoked, unanticipated, or unusually violent. Physical altercations that are not serious enough to be classified as a physical assault will generally be classified as “fighting” or “inappropriate physical behavior.”

Inappropriate Physical Behavior: A student shall not engage in roughhousing, shoving, hitting, slapping and other inappropriate physical behavior that does not rise to the level of “fighting” or “physical assault.”

Consequence: Administrative alternatives through suspension.

Fighting: A student shall not engage in hostile physical contact with another individual, or inciting or prompting others to fight.

Consequence: Suspension through expulsion.

Physical Assault: A student shall not intentionally cause or attempt to cause physical harm to another through force or violence.

Consequence: Suspension through permanent expulsion.

Verbal or Written Assault: A student shall not engage in conduct, either verbally or in writing, that places or is likely to place a student, staff or others in fear of imminent injury to person or property.

Consequence: Administrative alternatives through expulsion.

Hazing: A student shall not engage in the hazing of another student, regardless of whether the person being hazed, his parent or guardian, has given actual or implied consent to the hazing. Under Board Policy 5516, "hazing" is defined as performing any act or coercing another, including the victim, to perform any act of initiation into any class, group, or organization that causes or creates a risk of causing mental, emotional, or physical harm.

Consequence: Suspension through permanent expulsion.

Discriminatory Harassment: A student shall not intentionally engage in harassment relating to a person's sex, sexual orientation, gender identity, race, color, national origin, religion, height, weight, marital status, or disability. Under Board Policy 5517, "harassment" means any threatening, insulting, or dehumanizing gesture, use of technology (including social media), or written, verbal or physical conduct directed against a student or a group of students or a school employee that:

- A. places a student or school employee in reasonable fear of harm to his/her person or damage to his/her property;
- B. has the effect of substantially interfering with a student's educational performance, opportunities, or benefits, or an employee's work performance; or
- C. has the effect of substantially disrupting the orderly operation of a school.

Consequence: Administrative alternatives through expulsion.

Sexual Harassment: A student shall not intentionally engage in sexual harassment of another person. Under Board Policy 5517, "sexual harassment" consists of unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature, when

- A. submission to such conduct is made either implicitly or explicitly a term or condition of an individual's employment, or status in a class, educational program, or activity; or
- B. submission or rejection of such conduct by an individual is used as the basis for employment or educational decisions affecting such individual; or
- C. such conduct has the purpose or effect of interfering with the individual's work or educational performance; of creating an intimidating, hostile, or offensive working, and/or learning environment; or of interfering with one's ability to participate in or benefit from a class or an educational program or activity.

Consequence: Administrative alternatives through expulsion.

Bullying: A student shall not engage in conduct that violates the District's anti-bullying policy. Under Board Policy 5517.01, "bullying" means any written, verbal or physical act, or any electronic communication, including, but not limited to, cyberbullying (via social media or otherwise), that is intended or that a reasonable person would know is likely to harm one (1) or more District students, either directly or indirectly, by doing any of the following:

- A. substantially interfering with educational opportunities, benefits or programs;
- B. adversely affecting a student's ability to participate in or benefit from educational programs or activities by placing a student in reasonable fear of physical harm or by causing substantial emotional distress;
- C. having an actual and substantial detrimental effect on a student's physical or mental health; or
- D. causing substantial disruption in, or substantial interference with, the orderly operation of the school..

ADMINISTRATION OF THE CODE OF CONDUCT

LEVELS OF DISCIPLINE

Unacceptable student conduct, as defined above, may give rise to several levels of discipline, including administration alternatives to exclusion from school, emergency removal (snap suspension), suspension, expulsion or permanent expulsion.

Exclusion of a student from the educational programs of the District is a serious sanction, however, and thus administrators are encouraged, in appropriate cases, to consider administrative alternatives other than exclusion from school.

Level 1: Administrative Alternatives

Listed below is a non-exclusive list of administrative alternatives to exclusion from school that may be considered, with the appropriateness of a particular alternative dependent on the seriousness of the infraction, the student's age and discipline history, and other circumstances and factors.

- Classroom time out
- Lunch-time detention
- Before or after school detention (after notice to parents)
- Denial of participation in school or extracurricular activities or events
- Denial of the right to attend non-classroom school events
- Student-parent-school behavioral contracts
- A written assignment pertinent to the unacceptable conduct
- Confiscation of materials or items that are part of the unacceptable conduct
- Academic warnings
- Additional classroom assignment(s)
- Work assignment at school (cleanup or minor repairs)
- Required community service
- In the case of property damage, full financial restitution
- Loss of parking privileges at school
- Probationary status
- Restorative practices

Level 2: Emergency Removal ("Snap Suspension")

A student may be removed from any class, subject, or activity for up to one (1) day by his/her teacher for certain conduct as specified in the Code of Conduct pursuant to MCL §380.1309. A student so removed will be allowed to attend other classes taught by other teachers during the term of the one (1) day removal.

Level 3: Suspension

The Superintendent, the Superintendent's designee, or a building administrator may suspend a student for a period of up to 60 days. Ordinarily a suspension will be imposed by a building administrator.

Level 4: Expulsion of 61 to 180 days

The Superintendent, the Superintendent's designee, or a building administrator may expel a student for from 61 to 180 days. Ordinarily an expulsion will be imposed by a building administrator.

Level 5. Permanent Expulsion or Expulsion of Greater Than 180 Days

Upon the recommendation of a building administrator, the Superintendent or the Superintendent's designee may permanently expel a student or expel a student for greater than 180 days.

Note: The imposition of penalties for infractions other than mandatory permanent expulsion is subject to consideration of certain factors established by state law and Board Policy 5610.02, as discussed above.

Discipline of Students with Disabilities.

The rules governing student conduct apply to all students. The District, however, will fully comply with the Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973 and the Michigan Mandatory Special Education Act when disciplining students with disabilities.

Responsibility of the Excluded Student

Students Excluded for 10 Days or Less: Students who are assigned to in-school suspension, including students excluded by emergency removal for one (1) class, subject, or activity, and students who are suspended for 10 days or less, will be provided the course content (*i.e.*, worksheets, handouts, assignments), except for notes and other information provided by the teacher during the class period that would be considered part of the in-class lesson. Any content that would have received a grade will not be graded; the ungraded content will not be averaged into the student's final grade for the class. A student shall be offered make-up privileges during the time of the exclusion. It shall be the responsibility of the student to contact each teacher for course content and/or to arrange for make-up opportunities as determined by the teacher.

Students Excluded for 11 to 90 Days: Students who are suspended for more than 10 days or expelled for up to 90 days shall have access to course content, and are encouraged to keep up with the work of their classes. Any content that would have received a grade will not be graded; the ungraded content will not be averaged into the student's final grade for the class. A student shall be offered make-up privileges during the time of the exclusion. It shall be the responsibility of the student to contact each teacher for course content and/or to arrange for make-up opportunities as determined by the teacher.

Students Expelled for More Than 90 Days or Permanently Expelled: Students under 18 years old who are expelled for more than 90 days or permanently expelled from school remain subject to the state compulsory education law, MCL §380.1561. It is the

responsibility of the student and the student's parent(s) or legal guardian(s) to locate a suitable alternative educational program and to enroll the student in such a program unless/until the student is reinstated to school in the District or the student reaches the age of 18. The Michigan Department of Education Office of Safe Schools is charged with compiling information and options for alternative schooling.

Students who are expelled for more than 90 days or permanently expelled are required to return to the principal all school-owned property in their possession as soon as possible.

DUE PROCESS

Students subject to suspensions greater than 10 days or expulsion of 180 days or less.

Except in emergency situations, prior to the implementation of a suspension or expulsion a student shall be given due process, consisting of oral or written notice of the charges against him or her, a summary of the evidence supporting the charges, and the opportunity to respond. When such suspension or expulsion has already occurred, notice and opportunity to respond shall occur as soon as reasonably possible. The building administrator shall be responsible for making the suspension decision, and shall provide the student the opportunity be heard.

A suspension or expulsion of 180 days or less may be appealed by the student and/or the student's parent or guardian to the Superintendent or Superintendent's designee, using the following procedure:

1. A student or parent wishing review of a suspension or an expulsion shall first request a conference with the principal to review the expulsion within five (5) school days of the mailing of written notice of the expulsion. If no such conference is requested, the suspension or expulsion shall be deemed final.
2. If a conference takes place, the principal shall issue a written determination affirming or modifying the suspension or expulsion. The determination shall be mailed to the student and parent within 5 (five) school days following the conference, along with a written notice of the right of appeal to the Superintendent or designee.
3. A suspension or expulsion which has been the subject of a review conference with the principal may be appealed to the Superintendent or the Superintendent's designee by the student or parent by filing with the Superintendent's office a written request for appeal within 5 (five) school days following mailing of the principal's written determination affirming or modifying the suspension or expulsion. If no such appeal is filed, the suspension or expulsion shall be deemed final.
4. The Superintendent or designee may stay enforcement of a suspension or expulsion pending appeal.

5. Upon receipt of a request for appeal to the Superintendent or designee, the Superintendent or designee shall provide the student or parent written notice of the following: The time, date, and location of the appeal hearing. That the student may be represented by an attorney or advisor of the student's choosing. That witnesses may attend the hearing and present evidence to the Superintendent or designee.
6. The principal and other administrators from the student's school, Board attorney, and any other persons the Superintendent or designee believes are necessary may attend the appeal hearing as witnesses or advisors.
7. A stenographic or electronic record of the appeal hearing shall be made. The hearing shall be closed to the public.
8. During the hearing, the principal or other administrator shall first present to the Superintendent or designee the facts of the case and the basis for the suspension or expulsion. Thereafter, the student (and/or the student's representative and parent(s)) may present their defense. The Superintendent or designee and other participants in the hearing may ask questions of witnesses. While the hearing process is subject to due process and may have some similarities to a court proceeding, it is not conducted in a court of law and court rules are not applicable.
9. After conducting a hearing, the Superintendent or designee may:
 - a. Affirm the expulsion; or
 - b. Modify the terms and conditions of such expulsion, with or without new conditions. In modifying the expulsion, the Superintendent or designee may impose consequences that are greater, lesser or different than imposed by the principal, but the Superintendent or designee may not impose an expulsion greater than 180 days or a permanent expulsion; or
 - c. Set aside the suspension or expulsion.
10. The Superintendent or designee shall issue a decision in writing within a reasonable time following the appeal hearing. The Disciplinary Review Panel's decision shall be final.

Students subject to permanent expulsion or expulsion greater than 180 days.

Before a recommendation to the Superintendent or designee that a student be permanently expelled or expelled for more than 180 days, the student shall be provided at the building level oral or written notice of the charges against him or her, a summary of the evidence supporting the charges, and the opportunity to respond. If such a recommendation is to be made, the student and the student's parent or guardian must also be notified that the Superintendent or the Superintendent's designee will conduct a hearing to determine whether to accept the recommendation for expulsion. The following hearing procedure shall be followed: Upon receipt of a recommendation from an administrator that a student be expelled for more than 180 days or permanently expelled, the Superintendent or the

- b. that the student or parent may be represented by an attorney of advisor at the hearing.
- c. that witnesses may attend the hearing and present evidence to the Superintendent or designee.

If the student or parent fails to attend a hearing after receiving notice, the Superintendent or designee may proceed with the hearing and to a determination of whether to accept the recommendation.

2. The principal and/or other administrators from the student's school, the Board attorney, and any other persons the Superintendent or designee believes are necessary may attend the hearing as witnesses or advisors to the Superintendent or designee.
3. At the hearing, the student or parent shall be provided:

4. During the hearing, the principal or other administrator shall first present to the Superintendent or designee the facts of the case and the basis for the expulsion recommendation. Thereafter, the student, the student's parent and/or the student's representative may present their defense. The Superintendent or designee and other participants in the hearing may ask questions of witnesses. While the hearing process is subject to due process and may have some similarities to a court proceeding, it is not conducted in a court of law and court rules are not applicable.
5. After conducting the hearing, the Superintendent or designee shall mail to the student or parent a written decision with respect to the recommendation within five (5) school days following the hearing. The Superintendent or designee may:

 - d. decline to impose discipline.

6. A permanent expulsion or an expulsion greater than 180 days may be appealed to the Board of Education by the student or parent within fifteen (15) days of the mailing of the letter of expulsion or the letter following a review conference with the superintendent, pursuant to the provisions of Board Policy 5610.01.
The Superintendent or designee may stay enforcement of the expulsion or discipline

Search and Seizure

Lockers that are assigned to students remain the property of the District. Students have no reasonable expectation of privacy in their lockers and lockers may be searched at any time with or without reasonable suspicion. A search in the student's absence, however, shall only be conducted where there is reasonable belief that a clear and present danger to health and/or safety exists, or where there is a search warrant. General searches of school property may be conducted only by the school principal or designee for legitimate cause that may include health or order. (See Policy 5771 - Search and Seizure.)

Illegal items (firearms, weapons, drugs, etc.) or other items reasonably determined to be a threat to the safety or security of students or the school will be removed from student possession. Items that are used to disrupt or interfere with the operation of the school may be temporarily removed from student possession. Search of persons, or belongings (including electronic devices) shall be done only with good reason by the school principal or designee with a witness present. The student will have the right to know the reason prior to the search of person or belongings.

Procedural Rules

The hallmark of the exercise of disciplinary authority shall be reasonableness and fairness.

Substantial effort shall be made by staff members to resolve problems through effective utilization of District resources in cooperation with the student and his/her parent/guardian. Such efforts must be recorded by the school administrator and should be recorded by the staff member and kept on file.

No student shall be detained by the District after the close of the regular school day unless the student's parent/guardian, or designated adult when the parent/guardian is unavailable, has been contacted and informed that the student will be detained.

No student shall be refused transportation services until the parent/guardian has been notified.

During debarment (one [1] day or less) or short-term suspension (up to ten [10] days), the student will be provided the course content (i.e. worksheets, handouts, assignments), except for notes and other information provided by the teacher during the class period that would be considered part of the in-class lesson. Any content that would have received a

grade will not be graded; the ungraded content will not be averaged into the student's final grade for the class.

A student shall be given make-up privileges if a test or other major evaluation occurs during the time of the debarment or short-term suspension. Make-up privileges shall be extended for unit or chapter tests, term papers, projects, class presentations, etc.

It shall be the responsibility of the student to contact each teacher for course content and/or to arrange for make-up privileges.

During long-term suspension, a student will not be provided the course content, unless authorized by the Deputy Superintendent.

Students shall not be subject to "corporal punishment," as defined in M.C.L.A. 380.1312.

Seclusion and/or restraint shall only be used on an emergency basis, and, then, only in accordance with the Policy adopted by the Michigan State Board of Education and by this Board (see Board Policy 5640.)

Criminal Acts

A student shall not commit or participate in any conduct or act defined as a crime by State or Federal laws. Such acts may be considered to be violations of this Code of Conduct.

Michigan Revised School Code

Under Sections 1311 and 1311a of the Michigan Revised School Code (M.C.L.A. 380.1311 and 1311a), the District is required to expel students who are found to have engaged in certain acts of misconduct:

Dangerous Weapons, Arson, Criminal Sexual Conduct

If a student possesses in a weapon-free school zone a weapon that constitutes a "dangerous weapon", commits arson in a school building or on school grounds, or commits criminal sexual conduct in a school building or on school grounds, the Board shall expel the student from the District permanently, subject to possible reinstatement after the expiration of not less than one hundred eighty (180) school days, as provided for within the Michigan Revised School Code. The Board is not required to expel a student for possessing a weapon if the student establishes in a clear and convincing manner at least one (1) of the following:

- A. The object or instrument possessed by the student was not possessed by the student for use as a weapon, or for direct or indirect delivery to another person for use as a weapon.
- B. The weapon was not knowingly possessed by the student.

- C. The student did not know or have reason to know that the object or instrument possessed by the student constituted a dangerous weapon.
- D. The weapon was possessed by the student at the suggestion, request, or direction of, or with the express permission of, school or police authorities.

Physical Assault

If a student in grade 6 or above commits a physical assault against an employee, volunteer, or contractor of the District while at school, the student shall be permanently expelled from the District, subject to possible reinstatement after the expiration of not less than one hundred eighty (180) school days. "At school" means in a classroom, elsewhere on school premises, on a school bus or other school-related vehicle, or at a school-sponsored activity or event whether or not it is held on school premises.

The Michigan Revised School Code also permits a teacher to suspend a student from the teacher's class, subject or activity for up to one (1) full school day, if the student engages in any of the following types of conduct during the class, subject or activity:

- A. physically fighting;
- B. disruption of the educational process, including insubordination, after repeated warnings;
- C. profanity/inappropriate use of language after repeated warnings;
- D. refusing to wear safety glasses or other safety required attire despite the teacher's request that the safety equipment must be worn;
- E. using a laser light without the teacher's permission after repeated warnings;
- F. possessing, using or under the influence of alcohol or a controlled substance; and
- G. having a dangerous weapon as defined by the Revised School Code.

A teacher-initiated one (1) day suspension from the teacher's class, or subject, does not preclude the building administration from administering additional discipline in accordance with Board policy.

It should be noted that the above items that are referenced in State or Federal statutes are also considered by this Board to independently serve as a basis for discipline under this Code of Conduct. A change in any of the statutory provisions, including new interpretations or clarifications will not affect the inclusion of any such items in this Code of Conduct.

Misconduct in Another School System

A student who has been found to have engaged in misconduct resulting in expulsion or long-term suspension in another school system, or who has withdrawn from a school system prior to a hearing on alleged misconduct, may be charged with a violation of this Code of Conduct as a result of the prior misconduct. All applicable due process procedures will be followed in determining whether discipline will be imposed by the District.

The Superintendent or designee shall establish administrative guidelines, in accordance with State and Federal law and regulation, for suspension and/or expulsion for misconduct in another District.

Off-Campus Misconduct

Students in attendance at school-sponsored, off-campus events are subject to the direction and authority of District personnel and are governed by all applicable rules and guidelines of the District. In addition, students' off-campus conduct which may have an effect on the general safety and welfare of students, staff, or others in the school community may result in disciplinary action, whether or not part of a school-sponsored activity.

Debarment, Suspension and Expulsion

The Superintendent or designee shall establish administrative guidelines, in accordance with State and Federal law and regulation, for debarment, suspension and expulsion.

A. Debarment

A debarment is a prohibition against the student attending classes for up to one (1) day. An administrator may make a debarment. A debarment request by a teacher shall be reviewed by the building administrator or designee, but no later than the end of the school day. A debarment is not a suspension.

B. Suspension

A short-term suspension is a temporary exclusion from school, and any school-related activities, for not more than ten (10) school days. The authority to issue a short-term suspension rests with the principal or designee. Prior to the imposition of a short-term suspension, the student shall be given the opportunity to meet with the principal or designee. The student shall be:

1. advised of the specific violation of the Code of Conduct with which s/he is charged;
2. advised of the nature of the evidence the principal or designee has to support the charge; and
3. provided an opportunity to respond to the charge.

A long-term suspension is the exclusion from school and any school-related activities for a definite period of school days exceeding ten (10) school days. The Superintendent or designee has the authority to impose a long-term suspension based upon a recommendation from the building administrator and a finding of misconduct following the opportunity for a hearing.

C. Expulsions

An expulsion is the total and permanent exclusion of a student from the District, subject to the potential for readmission described in this policy. The Board has the authority to expel based upon a recommendation from the Superintendent or designee and a finding of misconduct, following the opportunity for a hearing.

Following expulsion, the Board may, but is not required to, authorize administration to render services to the expelled student such as admission to a community education program within the District for continuation of academic classes or assistance in obtaining placement in alternative programs within or outside the District.

Building-Level Debarment or Suspension

Lunch/off-campus and parking lot privileges, athletics and extra-curricular participation, detentions, and attendance are considered building-level issues. The student handbook and other documents define the building's policies and procedures for building-level issues, which align with the preamble of the District's Code of Conduct and are made available to students and parents at the building.

Debarment and suspension of privileges or participation, the assignment of detentions and consequences for attendance issues are the decisions of the building administration. Appealing decisions made at the building level are heard through the principal or designee. The Superintendent or designee will not hear appeals on debarment and suspension of privileges or participation, or the assignment of detentions and consequences for attendance issues unless the appeal is based on an alleged failure to follow building policies or procedures. In such cases, the debarment or suspension stands during the pendency of the appeal.

Exclusion during Suspension or Appeal

A student is not permitted to attend classes, remain on school grounds (except in the case of an in-house suspension), or participate in any extra-curricular activities during the period of suspension or appeal.

Readmission

This section does not apply to students who have been expelled for so-called "mandatory expulsion" offenses under Section 1311 of the Michigan Revised School Code (M.C.L.A. 380.1311; MSA 15.41311(5)). Reinstatement for such students shall be in accordance with Section 1311(5) of the Michigan Revised School Code, M.C.L.A. 380.1311(5); MSA 15.41311(5).

A student who is expelled shall not be readmitted to any school within the District except by action of the Board.

After an expelled student's absence from school for the remainder of the semester during which the incident leading to the expulsion occurred and the one (1) regular school semester/trimester following, the student or, on behalf of the student, the student's parent/guardian may seek readmission by applying to the Board through the Superintendent or designee. The Board may, in its discretion and subject to this policy, choose to readmit the student if s/he can satisfactorily demonstrate that s/he had made a sincere effort at rehabilitation subsequent to the expulsion, will not represent a threat to the safety and welfare of the students, and will not disrupt the educational process of the District. The Board shall base its decision in part on the severity of the incident leading to expulsion. The Board may further qualify readmission upon specified conditions that it determines are appropriate.

Such applications shall be filed no earlier than forty-five (45) days prior to the commencement of the semester/trimester for which readmission is sought. The decision of the Board on the question of readmission is final.

5611 - DUE PROCESS RIGHTS

The Board of Education recognizes the importance of safeguarding a student's constitutional rights, particularly when subject to the District's disciplinary procedures.

To better ensure appropriate due-process is provided a student, the Board establishes the following guidelines:

A. Students subject to suspensions greater than ten (10) days or expulsion of 180 days or less.

Except in emergency situations, a student must be given oral or written notice of the charges against him/her, a summary of the evidence supporting the charges, and the opportunity to respond prior to the implementation of a suspension or expulsion. When such suspension or expulsion has occurred, notice and opportunity to respond shall occur as soon as reasonably possible. The building administrator shall provide the student an opportunity be heard and shall be responsible for making the suspension decision.

A suspension or expulsion of 180 days or less may be appealed by the student and/or the student's parent or guardian to the Superintendent/designee. The Superintendent shall establish guidelines as contained in the Code of Conduct governing appeals of suspensions. The decision of the Superintendent/designee on appeal is final.

B. Students subject to permanent expulsion or expulsion greater than 180 days.

Prior to the imposition of a permanent expulsion or an expulsion of greater than 180 days, a student and the student's parent or guardian must be given written notice of the intention to permanently expel or expel for more than 180 days, a summary of the evidence supporting the expulsion, and notice that the Superintendent shall conduct a hearing to determine whether to accept the recommendation for expulsion. The student and the student's parent or guardian must also be provided a brief description of the student's rights and of the hearing procedure. The Superintendent shall establish guidelines in the Code of Conduct governing the procedure to be followed in the hearing to determine whether the expulsion shall be implemented.

A permanent expulsion or an expulsion of greater than 180 days may be appealed to the Board in accordance with the provisions of Policy **5610** and Policy 5610.01. At the student's request, the hearing may be private in accordance with the Open Meetings Act, but any Board decision must be taken in open session.

C. Removal of a student from school pending investigation or provision of due process.

When an administrator deems it necessary, the administrator may remove from school a student charged with, suspected of committing, or suspected of being involved in, an infraction or incident, for a reasonable period of time necessary:

1. to complete the investigation of an alleged infraction or incident; or
2. to defuse a situation that could become worse without such removal; or
3. in unusual circumstances, to permit the student to be accorded due process, as defined in this policy, which shall be accorded as soon as possible thereafter; or

4. for other reason(s) as renders such a removal in the best interests of a particular student, a school, its students, or its staff.

Such a removal shall not constitute disciplinary action, although the infraction or incident may result in disciplinary action. If the infraction or incident that has prompted removal results in discipline, the time during which the student has been removed from school shall be credited to any disciplinary time imposed.

The Superintendent shall establish procedures so that all members of the staff comply with this policy when dealing with students. In addition this statement of due process rights is to be placed in all students handbooks in a manner that will facilitate understanding by students and their parents.

9250 - PARENT/GUARDIAN INVOLVEMENT AND RELATIONS WITH PARENTS/GUARDIANS

The Board of Education believes that the education of children is a joint responsibility, one it shares with the parents/guardians of the school community. To ensure that the best interests of the child are served in this process, a strong program of communication between home and school must be maintained.

The Board believes that it is the parents/guardians who have the ultimate responsibility for their children's in-school behavior, including the behavior of students who have reached the legal age of majority, but are still, for all practical purposes, under parental/guardian authority. During school hours, the Board, through its designated administrators, acts in loco parentis or in place of the parents/guardians

In accordance with Board policies and administrative guidelines, the District will provide the opportunity for parents/guardians to review curriculum and instructional materials and to visit the school to observe the instructional process within the limits prescribed by policy.

The Board requires, in compliance with State and Federal law, the Superintendent or designee to develop a parent/guardian involvement plan to encourage parent-school cooperation. Each school will also develop a parent/guardian involvement plan that encourages parent-school cooperation.

The parent/guardian involvement policy and plans will be shared with parents/guardians on the District web site, school web sites, and in parent/student handbooks.

For the benefit of children, the Board believes that parents/guardians have a responsibility to encourage their child's career in school by:

- A. supporting the schools in requiring that the children observe all school rules and regulations, and by accepting their own responsibility for children's in-school behavior;
- B. sending children to school with proper attention to their health, personal cleanliness, and dress;
- C. maintaining an active interest in the student's daily work and making it possible for the student to complete assigned homework by providing a quiet place and suitable conditions for study;
- D. reading all communications from the school, and District and signing and returning them promptly when requested;
- E. cooperating with the school in attending conferences set up for the exchange of information of the child's progress in school.
