

CHAPTER 16

Skills Practice Worksheet 16
Reading a Pie Chart

A pie chart is a useful way to show the parts that make up a whole. In reading a pie chart, you need to find out what the whole represents. Usually this information is in the title. Then you should see what each part of the whole stands for. Look at the pie charts below. Then answer the questions that follow.

1. What is the whole represented by the four charts? _____

2. What does each chart represent? _____

3. What percentage of railroad track did the North have? _____
The South? _____
4. In terms of percentage, how great was the North's advantage in manufacturing?

5. Write a one-sentence summary of the information presented on the charts. _____

Look at the Mathew Brady photograph below. Then answer the questions that follow.

1. What do you think is the subject of the photo? _____

2. Why would women and children be in a Civil War camp? _____

3. Name some of the items you see in this photo. _____

4. How do photographs enhance our understanding of the Civil War? _____
